## Valtech Car & Commercial Vehicle Valeting

(If It's Got Wheels... We can Clean It!)

Dear Ian,

I just wanted to drop you a line to say thanks for a job well done!

As you know I was fairly dubious about advertising my new business even though the pricing was clearly of interest to my budget. However, when you presented your examples backed up with your live demonstration this gave me confidence.

I was also particularly impressed with your willingness to commence work with only a modest deposit, something many wouldn't do.

I know I had to be lead by your experience yet I was very happy how the Advert wording was developed & actually said what I felt needed to be said & simply.

As I mentioned even though this Ad is fairly new I have already had quite a few jobs & subsequent referrals from it and clearly know it is working for me.

(It also makes you feel quite proud to see yourself up at the top levels of the search engines & witness 'your business name in lights' so to speak).

I will be happy to refer & recommend you to friends & colleagues,

Thanks again

Yours Sincerely

Paul Eloi
