

13th July 2007

We have been advertising with yellowtom.co.uk/leeds for 14 months and recently renewed due to it working for us and giving us great exposure in all search engines.

Knowing that our advert can be altered whenever we need it to be is of great benefit and the fact that our stats will be available when we request them is also invaluable to discovering exactly how people are finding us.

We would recommend yellowtom.com to all businesses in Leeds wishing to receive more business.
